Roll som ansvarar för detta dokument: Vice VD

**Environmental Policy**

Frigus shall contribute to a more sustainable future by focusing on high-quality and reliable products, reducing unnecessary environmental impact, and continuously improving our environmental performance. Environmental responsibility is shared by everyone and is a natural part of our daily work. Management is responsible for providing the necessary conditions for effective environmental management and ensuring that the environmental policy and environmental objectives are regularly reviewed and followed up. Frigus is committed to protecting the environment and preventing pollution through proactive measures.

**We shall:**

- Understand and comply with applicable environmental legislation and other binding requirements relevant to our operations.
- Prioritize quality and long-term sustainability when selecting and developing products.
- Reduce unnecessary resource consumption and waste in our own operations, while promoting reuse, waste sorting, and recycling.
- Consider environmental aspects when selecting suppliers, packaging, and transportation solutions.
- Establish and monitor environmental objectives and continuously improve our environmental performance.
